GREEN SOLUTIONS FOR GREEN CITIES

The future is urban, let's make it green.

Let's greenify our cities and explore the changing dynamics of energy usage and sustainable solutions across different domains, from public institutions to communities and urban spaces. Discover how alternative energy sources and renewable solutions, waste management, mobility, digitalisation and urban planning can contribute to the transformation of our cities.

The Green Solutions Exhibition Hall, an integral part of the Green Cities Forum event, is the place where we invite you to discover the latest and most effective sustainable solutions offered by leading companies in the field.

***Green cities. Green tech.
Green solutions.
New opportunities.***

OUTDOOR GREEN CITIES EXPO

Held in Braşov, Green Cities Expo is a premier **showcase of sustainable technologies, products, and services aimed at fostering green cities.**

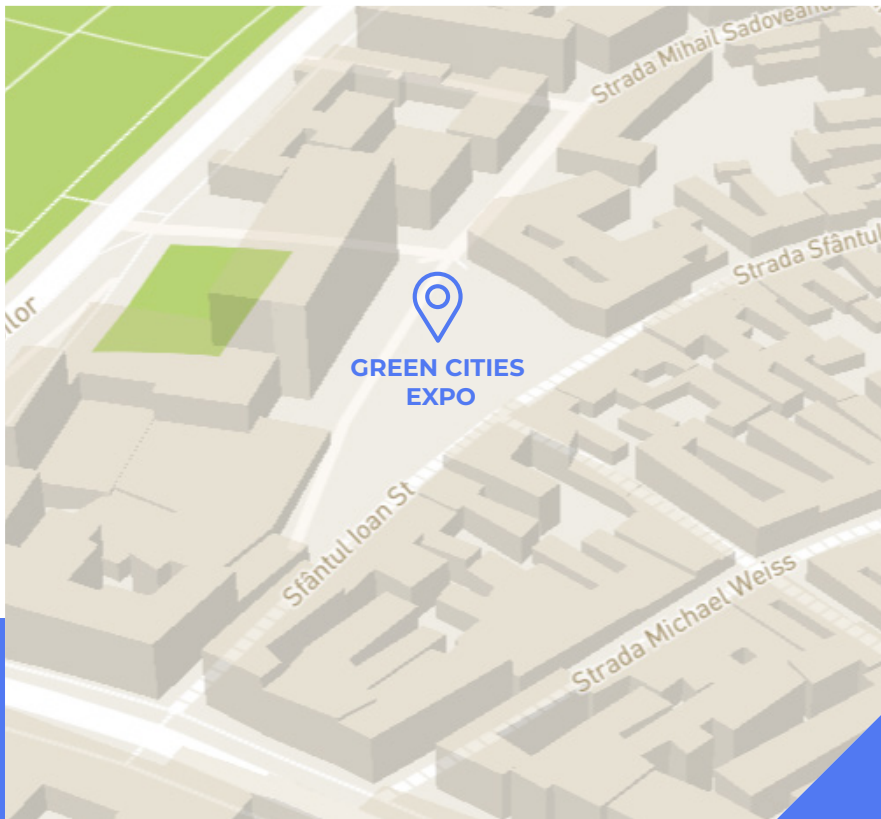

It **brings together industry leaders, policymakers, and stakeholders** to explore and promote sustainable practices that address environmental challenges in urban areas.

Focus on:

- **Waste management & Circular economy**
- **nZEB buildings**
- **Eco mobility**
- **Solutions for smart cities**
- **Sustainable urban planning**
- **Smart infrastructure and utilities**
- **Smart city solutions**
- **Green fundings**
- **Data governance and privacy**

- **1000 sqm of exhibition space**
- **5 days exhibition**
- **15 cities change-makers**
- **Over 1000 visitor**

Become a city-changer.

GREEN SOLUTIONS FOR GREEN CITIES

What's in it for you:

Visibility and exposure: by sponsoring the Green Cities Expo, your brand gains significant visibility among a targeted audience interested in sustainability and green initiatives.

Networking opportunities: engage with key stakeholders, industry experts, and potential clients within the sustainability sector.

Brand recognition: enhance your brand's visibility and reputation by aligning with a prominent event dedicated to sustainable urban development.

Showcase your solutions: demonstrate your products, technologies, and services to a diverse audience of decision-makers, urban planners, government officials, and consumers.

Thought leadership: position yourself as a thought leader in the sustainability space by participating in panel discussions, workshops, and presentations.

Be a city-changer.
